

LANCEBOX GROUP

WOHL Institute
Cutcombe Villa's, London

Project Time: 6 weeks

Price: £110,000

Lancebox group carried out the demolition, brick salvage and foundation removals at this project for Kings College London while acting as principal contractor.

The Lancebox Group are proud to have carried out the following works.

- ✦ Site Management, set-up and security throughout the duration of the works.
- ✦ Generation of all H&S plans, site waste and traffic management systems and issue of all relevant notices for the demolition works.
- ✦ Service isolations for; electric, gas and water including liaising with each utility provider.
- ✦ Pre-demolition soft strip works to ensure that all waste materials are segregated prior to the recycling processes undertaken at the nearest transfer facility
- ✦ The sequenced demolition of the terraced properties and multiple storey office building using heavy demolition machinery including our high reach excavator with multiple attachments.
- ✦ The breaking up and removal of all slabs and foundations to the site with all suitable hard rubble waste recycled back at our own licensed recycling centre.
